MINISTRY OF ENERGY OF THE RUSSIAN FEDERATION

OPINIONS ABOUT SAPE

Vice-chairman of the Russian Government
Olga Golodets

«It is necessary to promote Russian products to the foreign markets, including Safety and Security sphere. It is important to involve such countries as BRICS, for example. ».

The Minister of Labor and Social protection of the Russian Federation
Maxim Topilin

«At the exhibition, progressive technologies and topical solutions in the field of industrial safety and labor protection are presented. Direct communication between specialists and manufacturers of personal protective equipment and collective protective equipment are remarkable component of educational and consulting activities for improving the literacy of employers and employees. That is why SAPE exhibition is in demand by all participants of PPE market.».

Deputy Minister of Labor and Social protection of the Russian Federation
Grigory Lekarev

«The SAPE format allows not only to discuss pressing issues in the field of manufacturing and application of PPE, but also to demonstrate the innovative solutions and technological capabilities of protecting employees in extreme conditions and corrosive environments, as well as in more comfortable industries».

Deputy Minister of
Energy of the Russian Federation
Andrey Cherezov

«The exhibition is known to the specialists of the Fuel and Energy Complex as one of the open business events focused on achieving practical results. At this site, there are customers, manufacturers, developers of personal protective equipment and work technology that most fully meet the high requirements of professionals.
SAPE creates favorable conditions for the exchange of opinions, new ideas, as well as demonstration of future-oriented technologies».

REVIEWS OF SAPE EXHIBITORS

«Every year SAPE is becoming ever large event in the industry and a unique platform for sharing knowledge and experience, which attracts attention, including a large number of specialists from different countries. Here, the future of labor protection is formed - the initiatives of the regulatory and legal regulation of the labor market are discussed, and the most effective means of individual protection are demonstrated».

«Being a partner of SAPE year after year, Skincare company thanks the organizers of the exhibition for the highest level of the event. Every year the exhibition becomes more and more numerous, technological and innovative. It has already become a tradition for us to present new brands and solutions here, because SAPE is an effective platform for the exchange of expert opinions and innovations. And it attracts foreign specialists in labor protection, which is very important for us as an international company».

«For the group of companies Energocontract, SAPE exhibition is an annual platform for meetings with regular partners from different regions of Russia and foreign customers. We use this platform to tell a wide audience about the successful experience in the localization of the production process of personal protective equipment in Russia».

«Thanks to our close cooperation and productive collaboration with organizers as well as prompt response and assistance of the organizers in solving questions of any complexity, we could reach the top result and got good comments of professional community about our participation in SAPE and VNOT in 2018».
